

UNIPLEX 245
(DIETHYLENE GLYCOL DIBENZOATE)
CAS NO. 120-55-8

SPECIFICATIONS:

Appearance (30°C)	Clear Liquid
Acidity (as benzoic acid)	0.1% maximum
Color (APHA)	50 maximum
Assay	98.0% minimum ester

PROPERTIES:

Molecular Weight	314
Odor	Mild
Density (25°C)	9.8 lbs./gal.
Boiling Point (5 mm Hg)	240°C
Freezing Point	28°C
Solubility in Water	Practically insoluble
Viscosity, cps, 20°C	100 - 150 typical
Refractive Index (25°C)	1.5390 - 1.5426 typical
Specific Gravity (25°C)	1.177 - 1.179 typical

HANDLING INFORMATION:

Refer to Material Safety Data Sheet

These suggestions and data are based on information we believe to be reliable. They are offered in good faith, but without guarantee, as conditions and methods of use of our products are beyond our control. We recommend that the prospective user determine the suitability of our materials and suggestions before adopting them on a commercial scale. Suggestions for uses of our products should not be understood as recommendations that they be used in violation of any patents.
