

**UNIPLEX 988**  
**(DIPROPYLENE GLYCOL DIBENZOATE)**  
**CAS NO. 27138-31-4**

SPECIFICATIONS:

Appearance	Clear Liquid
Acidity (as benzoic acid)	0.1% maximum
Color (APHA)	100 maximum
Assay (percent esters)	98.0% minimum
Hydroxyl Number, mg KOH/g	15 maximum

PROPERTIES:

Molecular Weight	342
Specific Gravity (25°C )	1.120 - 1.125
lbs./gal.	9.3 - 9.4
Boiling Point (5 mm Hg)	232°C
Freezing Point	-40°C
Flash Point (tag open cup)	212°C, minimum
Viscosity, Brookfield, 20°C	150 - 250 cps

HANDLING INFORMATION:

Refer to Material Safety Data Sheet

*These suggestions and data are based on information we believe to be reliable. They are offered in good faith, but without guarantee, as conditions and methods of use of our products are beyond our control. We recommend that the prospective user determine the suitability of our materials and suggestions before adopting them on a commercial scale. Suggestions for uses of our products should not be understood as recommendations that they be used in violation of any patents.*
