

Chemical Corporation

**UNIPLEX 105  
DIETHYL PHTHALATE  
CAS NO. 84-66-2**

**SPECIFICATIONS:**

Appearance	Clear Oily Liquid
Color, (APHA)	10 Maximum
Acidity (as Acetic acid)	0.007% Maximum
Refractive Index, 25°C	1.499-1.501
Assay, (% Diethyl Phthalate)	99% Minimum
Moisture, Karl Fisher	0.10% Maximum

**TYPICAL PROPERTIES:**

Specific Gravity, 20°C	1.118-1.122
Odor	Essentially odorless
Molecular Weight	222

**HANDLING INFORMATION:**

Refer to Material Safety Data Sheet

These suggestions and data are based on information we believe to be reliable. They are offered in good faith, but without guarantee, as conditions and methods of use of our products are beyond our control. We recommend that the prospective user determine the suitability of our materials and suggestions before adopting them on a commercial scale. Suggestions for uses of our products should not be understood as recommendations that they be used in violation of any patents.
